**About Laramide:**

Laramide is engaged in the exploration and development of high-quality uranium assets. Its wholly owned uranium assets are in Australia and the United States. Laramide's portfolio of advanced uranium projects have been chosen for their production potential. Its flagship project, Westmoreland, in Queensland, Australia, is one of the largest projects currently held by a junior mining company. Its U.S. assets include La Jara Mesa in Grants, New Mexico, and La Sal in the Lisbon Valley district of Utah. Its portfolio also includes joint venture, strategic equity positions and royalty participation in uranium development and exploration companies that provide additional geographic diversification and uranium exposure for shareholders.
